

Computerized Investing September Edition

The September Edition of Computerized Investing is now available!

This month's edition includes:

Editor's Outlook: September CI's Interview, Summary and Spreadsheet

Spreadsheet Corner: Calculating Intrinsic Value in Excel

An easy-to-use spreadsheet that allows you to perform independent analysis to determine a stock's fair value and see whether it exceeds the market price.

Interviews: Ten Questions and More with AAI President John Bajkowski

Get to know AAI's president John Bajkowski as an individual investor and hear about the early days of Computerized Investing.

Robo-Advisers: Possible Pitfalls of Robo-Advisers

Services that automate the investment decision process can be enticing, but an understanding of their limitations and weaknesses is crucial before you turn over your funds.
