

Upcoming Chapter Meeting: AAI Denver

Date: Tuesday, November 19, 2013

Topic: Applied History: 2014 Mid-Term Election Year Outlook and Helpful Seasonal Patterns

Speaker: Jeff Hirsch, Editor, Stock Trader's Almanac

Many of us have regularly consulted The Hirsch Organization's signature annual market almanacs for historical trends and tendencies. At this event you will meet the editor, Jeff Hirsch and get an early look at the Almanac's prognostications for cycle time. We will be five years removed from the 2009 start of the present bull market. Learn about annual and seasonal patterns worth knowing. View copies of the 2014 Almanac "hot off the press," and ask Hirsch specific questions. Don't miss this significant presentation by a top-notch market historian. Why not bring a friend or colleague to show them the benefits of AAI?
