

## Upcoming Chapter Meeting: AAI Florida West Coast

Date: Tuesday, April 17, 2012

Topic: Everything You Wanted to Know About SEC Filings but Were Afraid to Ask

Speaker: Michelle Leder, Editor and Founder, Footnoted.com, a Division of Morningstar

Learn from the leading expert about the hidden meanings in seemingly routine SEC filings. We'll cover 10Ks, 10Qs, 8Ks, proxy statements and other types of filings that public companies are required to file with the U.S. Securities and Exchange Commission. These filings can be valuable in terms of idea generation, but perhaps more importantly, they are valuable for risk mitigation, since companies will often hint at potential problems long before they become common knowledge.

Leder will also be speaking at the Central Florida and Southwest Florida chapters this week.
