

Upcoming Chapter Meeting: AAI Milwaukee

Date: Thursday, September 19, 2013

Topic: Predicting Market Trends With Barron's

Speaker: Peter Miller, Statistics Director, Barron's

This presentation will begin with an overview of Barron's Market Week section, covering how and why the paper is arranged the way it is. The primary focus, however, will be on how to use various tables and data points in Barron's Market Week to trend the market. We will discuss market direction, market intensity, breadth of movements, market tops/bottoms, investor sentiment and yield curve analysis.
