

# Upcoming Chapter Meeting: AAI Phoenix

Date: Saturday, March 9, 2013

Topic: Getting Back on Track

Speaker: Jason Browne, Chief Investment Officer, FundX Investment Group/NoLoad FundX

Jason Browne will address the value of being globally diversified. Learn how NoLoad FundX is invested and how they determine when to capitalize on global opportunities. For many, deciding what to buy and sell has been less challenging than finding justification to invest at all, considering a barrage of headwinds, uncertainty and risk. To help investors who are missing the current rally to get back on track, Jason will present ideas to help nervous investors set realistic expectations and balance their emotional responses to risk with their need to generate a reasonable return on their money in a continuing zero interest rate environment.
