

# Upcoming Chapter Meeting: AAI Research Triangle

Date: Saturday, July 14, 2012

Topic: Trading and Investing Ideas in 2012

Speaker: Michael Shulman, Publisher, The New Normal Investor, Options Income Blueprint and Short Side Trader Advisory Services

Michael Shulman will look at three kinds of investing and trading—for speculative profits, for income and for long-term growth. Shulman will emphasize the intersection of market fundamentals and individual stocks and ETFs. He will discuss the impact of the U.S. election and the European debt crisis on the world economy and markets and give specific investment ideas to help you profit from both. Shulman will discuss how to produce higher monthly returns on your portfolio by trading options conservatively while limiting or eliminating risk.
