

CI Weekly Features: February 18, 2012

Track Your Finances on a Mac With iBank

A look at a personal finance program designed for the Mac and capable of syncing with mobile devices.

Investopedia.com

Investopedia.com is a financial website that has become increasingly expansive over the past several years. Originally, the website was designed as a resource for students and educational professionals, housing investment formulas and a complete dictionary of terms. The website now has the look of a comprehensive investment website, with news articles and fundamental stock data.

The Top Mutual Fund Screening Services

An in-depth look at the best software and websites for screening the universe of mutual funds.

Gadget Corner - Kingston Wi-Drive

Wireless flash storage device for iOS, Android & Kindle Fire

Featured App - Pageonce—Money & Bills

Automatically track, control and pay your bills.

This Week's Question

Which company/companies do you use for mobile voice or data? Note that you can choose more than one.

- A) AT&T
- B) Verizon
- C) Sprint
- D) T-Mobile
- E) Other (click here to tell us which company/companies you use for cellular voice or data)
- F) I do not have a mobile voice or data plan
