

Computerized Investing's New April Content

Computerized Investing's new April content is now available!

This month includes:

The Top 10 Sites for Data, Ratings and Screening for Mutual Funds and ETFs

In-depth descriptions of the 10 sites that the CI staff currently view as being “the Best of the Web” tools for mutual funds & ETF data, ratings & recommendations, and screeners.

Using the bloom Robo-Adviser to Manage Your 401(k)

The bloom service links to users' existing 401(k) and carries out recommended changes to the portfolio based on optimal fees, risk and diversification.

Also, don't forget to share your thoughts with the new CI Reader Survey question.
